**“The recent movements in productivity since the pandemic suggest this underlying weakness in South Africa's productivity growth remains”**

Labour and Capital productivity remained unchanged with a negative growth rate while Multifactor productivity decelerated somewhat in 2023

**You are invited to join Productivity SA as it unpacks the performance of productivity indicators as follows:**

**Date:** 06 December 2024

**Time:** 09:30 – 12:30
